

Bewege deine Zukunft mit uns.

Wir suchen Dich.

Construction Manager / Site Manager for Industrial Facilities (m/f/d)

Your Responsibilities:

- Technical and supervisory leadership of an installation team for automated transport and storage systems in cleanrooms, as well as day-to-day management of construction site operations
- Close operational collaboration with project management and on-site customers in the planning, coordination, and monitoring of installation and service projects in the semiconductor industry—including regular progress and status updates
- Ensuring the highest quality and safety standards, as well as implementing and verifying quality control measures, acceptance tests, and handoffs
- Communication and coordination between the team, management, and customers—from requirements through operational scheduling to the completion of installations
- Coordinating and supervising the installation area, as well as conducting team meetings and regular feedback sessions

Your Profile:

- Completed technical vocational training and/or a technician or master craftsman certification (e.g., mechatronics, electrical systems, mechanical engineering, electrical engineering, etc.)
- Relevant professional experience in the installation or servicing of technical systems—ideally in the semiconductor industry
- Initial leadership experience and the ability to coordinate external project partners
- A structured, solution-oriented, and customer-focused approach to work
- Strong communication and problem-solving skills
- Very good German (C1) and English (B2) skills
- Proficiency with MS Office
- Intercultural competence and willingness to travel occasionally for work
- Class B driver's license

What we offer:

- Full-time, permanent position
- Regular working hours Monday through Friday—no shift work
- 30 days of vacation & special leave

- Company pension plan
- Company supplemental health insurance
- Group accident insurance
- Daycare subsidy
- Financial Participation in Annual Company Profits
- Company bike
- High-quality PPE and tools
- Laptop and company cell phone, also for personal use
- Professional development through internal and external training
- A family-like work environment with regular team events and family celebrations
