

Bewege deine Zukunft mit uns.

Wir suchen Dich.

Electronics Technician / Electrician / Mechatronics Technician with Potential for Team Leadership (m/f/d)

Your Responsibilities:

- Designing transport systems for manufacturing automation in the semiconductor industry
- Electrical and mechanical installation of assemblies and system components according to drawings and schematics under cleanroom conditions
- Troubleshooting, fault resolution, and performing initial inspections, commissioning, and functional tests through to customer acceptance
- Documenting work steps and system tests, as well as preparing handover reports. **Long-term prospects:**
- Assumption of leadership responsibilities as an Electrical Engineering Team Leader (m/f/d)
- Certified electrical technician responsible for the team
- Active participation in defining, implementing, and optimizing workflows in projects
- Training new team members (m/f/d)

Your Profile:

- Completed vocational training in an electrical engineering field or a technician/master craftsman (m/f/d) specializing in mechatronics or electrical engineering
- Professional experience in the installation of electrical components and systems
- Proficiency in MS Office and IT
- Very good German and basic English skills
- Team spirit, customer focus, and a structured, meticulous approach to work
- Valid driver's license required
- Willingness to travel occasionally within Europe—preferred
- Ability to perform physical work under cleanroom conditions

What we offer you:

- An exciting role in the high-tech environment of the semiconductor industry, primarily at our Dresden location
- Full-time, permanent position
- Regular working hours Monday through Friday—no shift work

- 30 days of vacation & special leave
- Company pension plan & supplemental health insurance
- Disability insurance with employer contribution
- Group accident insurance
- Daycare subsidy
- Financial Participation in Annual Company Profits
- Company Bike
- High-quality PPE and tools
- Laptop and company cell phone, also for personal use
- Professional development through internal and external training
- A family-like work environment with regular team events and family gatherings

What else?:

- A structured onboarding program with targeted development of your skills
- The opportunity to contribute your technical expertise and advance to a team leadership role

Does this sound like your next career move? Then apply now—as **an Electronics Technician / Electrician / Mechatronics Technician with the potential to become a team leader (m/f/d)!**
