

Bewege deine Zukunft mit uns.

Wir suchen Dich.

Mechatronics Technician (m/f/d)

Your Responsibilities:

- Assembly and installation of fully automated transport systems in a cleanroom
- Commissioning and functional testing of the systems in collaboration with the respective project team
- Conducting system tests and fault analyses
- Handover of the systems to the customer, including conducting customer training sessions
- Documenting work steps and system tests, as well as preparing handover reports
- Support with maintenance, service, and optimization of existing systems

Your Profile:

- Completed, recognized vocational training as a mechatronics technician (f/m/d) or in a related electrical engineering field
- Professional experience in the installation and commissioning of complex mechatronic systems is a plus
- Knowledge of drive technology, sensor technology, and control systems
- Ability to work in cleanroom conditions
- Proficiency in MS Office and IT
- Proficiency in German and English
- Team-oriented, solution-oriented, and customer-focused approach to work
- A driver's license is required
- Willingness to travel nationally and internationally (approx. 20%) is required

What we offer:

- Full-time, permanent position
- Regular working hours Monday through Friday—no shift work
- 30 days of vacation & special leave
- Company retirement plan
- Company-sponsored supplemental health insurance
- Group accident insurance
- Daycare subsidy

- Financial Participation in Annual Company Profits
- Company bicycle
- High-quality PPE and tools
- Laptop and company cell phone, also for personal use
- Professional development through internal and external training
- A family-like work environment with regular team events and family gatherings
